	Online Payments for taxes	Tax administration service used by URA
	Motor Vehicle transfers	Tax administration service used by URA
	Payments for Stamp duty	Tax administration service used by URA
	Motor Vehicle Tax Calculator	Tax administration service used by URA
	Report Non-Compliance	Tax administration service used by URA
	Online application for import and export licenses	Tax administration service used by URA
	online recruitment portal	online recruitment portal used by URA
	Online Wealth Declaration System for public servants	Declare wealth online with IGG
	Online check for your Votability	e-service used to check for voting eligibility
	Voter Locator	e-service used to check for voting location

SECTOR	Automated E-Service	Description
ENERGY & DEVELOPMENT	Crane Management System (National supplier database)	Contains information on contractors, surveys, procurements, GIS data, also has an HR module.
	mobile application for customer complaints on power distribution	e-service used by UEDCL for management of customer complaints
	Online registration of Oil and Gas Supplier	contains information on expertise in the oil and gas sector
	Registration and application for Online licensing of certified electricians	this is an e-service used to ERA
	Registry for licensed certified electricians	Portal with information on licensed certified electricians
	Application used to broadcast public information via SMS .	e-service used by UEGCL for mass communication
AGRICULTURE	Online applications for Animal License & Permits	ALL exporters and importers use this e-service for electronic registration and certification of their consignments via the MAAIF Portal.
	Online applications for Animal vaccines import Permits	ALL exporters and importers use this e-service for electronic registration and certification of their consignments via the MAAIF Portal.
	Online applications for Fisheries License & Permits	ALL exporters and importers use this e-service for electronic registration and certification of their consignments via the MAAIF Portal.

SECTOR	Automated E-Service	Description
	Online applications for Crops certification & Permits	ALL exporters and importers use this e-service for electronic registration and certification of their consignments via the MAAIF Portal.
	Online application International Veterinary Health Certificate	E-Service used to apply for inspection and issue health certificates and licenses
	E-Certification System	System to provide sanitary systems to importers, certify agricultural traders
	Coffee Farmer Registration (App)	Mobile Application to Register coffee farmers by UCDA
	A WEB-BASED LIVESTOCK MARKET INFORMATION SYSTEM (LMIS)	A web- based livestock market information system (LMIS)
	Geoportal	Geographic Information System for MAAIF
	Online EIA Assessment	online environmental impact assessments by NEMA
	EIA printing system It web-based system for printing final EIA certificates for projects	online environmental impact assessments by NEMA
	Automatic Weather prediction system	Automatic Weather prediction system to manage information collected by the equipment to be used with MAAIF
	e-Voucher	application which helps in managing distribution of subsidies to farmers under ACDP program

SECTOR	Automated E-Service	Description
EDUCATION	Check exam time tables	UNEB e-service used to provide information on examination timetables
	Examination registration and results information	UBTEB web service for registration and results information
	Make a Complaint	Used for e-registration, make a complaint, time tables, results information for UNEB
	E-learning	e-learning online platform for the Ministry of Education
	Register and Apply for student Loan	E-service used by HEFSB to extend loan related services to students.
	Check application status for student loan	E-service used by HEFSB to extend loan related services to students.
	Checking outing standing student loan balance	E-service used by HEFSB to extend loan related services to students.
	Library Information System	E-service for publishing and cataloguing library information (UNCST)
	Grants Management System	E-Service used by National Council for science and technology to award innovation grants
	Credit Point System	Used to credit scientists who participate in research ethics committee activities
	Examinations MIS Portal (UBTEB) SMS Service	System used to capture candidate's data, sends SMS with results
	E-Teacher	online platform for teachers registration and collaboration
	Academic Information Management System	web based education management information system for Public Universities and Self Accounting Tertiary Institutions

SECTOR	Automated E-Service	Description
	E-Research	An online repository for research done by National Council of Higher Education (NCHE)
	Examinations Information Management System	System used to register students, process results and produce Transcripts and Certificates used by National Curriculum Development Centre
	EduSchool	Smartphone, web based application to monitor SFG civil works
	e-inspection	online schools inspection platform used by the Ministry of Education to monitor Government funded schools
	Online Academic Program assessment	Improve on the efficiency and the quality of academic programs in Institutions of Higher Learning National Council of Higher Education (NCHE)
	E-learning system"	E-Content for curriculum for National Curriculum Development Centre
	Curriculum sales Online Payment service	This service is used to pay for curriculum sales for the National Council of sports
JUSTICE, LAW & ORDER	Online Judicial service complaints submissions	E-services being provided by Judiciary
	Judicial Officers Weekly Cause Lists	E-services being provided by Judiciary
	Search for Court Advocates	E-services being provided by Judiciary
	Search for Court Bailiff finder	E-services being provided by Judiciary

SECTOR	Automated E-Service	Description
	Make a Complaint on Cases before the court	E-services being provided by Judiciary
	Online applications for Visa (E-Visa)	facilitates applications and payment for DCIC services
	Online applications for work permit	facilitates applications and payment for DCIC services
	Online applications for citizenship	facilitates applications and payment for DCIC services
	Online applications for dependents pass	facilitates applications and payment for DCIC services
	Online applications for certificate of residency	facilitates applications and payment for DCIC services
