

Following Presidential advice on social interactions and public transport to reduce transmission on Corona Virus, NITA-Uganda has identified the following electronic channels to reduce the impact of COVID 19. They include online shopping apps, online food and commodity delivery channels, e-learning applications, utility payment platforms and many more. Ugandans are therefore encouraged to make use of these available electronic means to reduce human interactions and any subsequent spread of the COVID19 pandemic. Ugandans can still access over 90 e-services on the e-citizen portal [www.ecitizen.go.ug](http://www.ecitizen.go.ug)

Mobile Applications and E-Solutions to take you through the COVID Crisis with no social interactions
